GLACIER ENHANCED WEEKDAY TRAINING

This season Glacier racing is offering enhanced weekday training for individual racers who are interested in additional time on hill with coaching in a more advanced environment. The goal of the training will be to provide additional challenges to the racers in both free ski and gate training environments on escarpment hills. Training groups will be small and will be coached by Glacier's most experienced coaches.

Provided we have a minimum number of participants (six), we will enter into an agreement with the Toronto Ski Club to use their facilities for a portion of the training dates and other partnerships are being explored at other escarpment clubs and with local clubs to combine training groups.

A final schedule for weekday training will be finalized once AOS has produced the season schedule. The preliminary schedule will include Fridays commencing January 4th and continuing through to March 1st, 2013.

Contact [Coach John Johnston](#) or [Coach Bill Routhier](#) for more information.

Meet and Greet on First Day of Christmas Camp - Dec 27th

Bring an appetizer to share on Dec 27th as we meet and greet old and new members. Bring drinks for the kids and the bar will be open at Louis for the bigger kids.

Meeting and greeting will follow training. Before the kids are back there will also be a short presentation providing an overview of ski

there will also be a short presentation providing an overview of ski racing and Glacier - great for new members and a refresher for the old.
